

Minutes of meeting: client meeting 07.12.2023

Start of meeting: 10:23

- Discussing the current iteration of the project
- Separate the work shifts to tasks (example task 1 from 10:00 to 12:00 and make them in blocks of 4 hours)
- Make the animal notes visible in the desktop application
- Implement a ticketing system (the desktop application should be able to create different tickets)
- Make statistic for how many tickets are sold/available
- Make an iteration plan to see what is possible to be implemented until the next client meeting
- Update the documentation

-Next client meeting should be on the 8th of January (online meeting is an option as well)
